

PUSD Academic Achievement Gap API Scores 2003-2009: White & Asian Minority vs Hispanic & African-American Majority

PUSD's 19% White and Asian Minority: On the road to and through college.

Not going to college: The API for PUSD's Hispanic and African-American Majority is 140 points lower than the API for their White and Asian minority peers. At this rate, the academic achievement gap at PUSD will not close for well over a century. No more than 70% of this student majority will graduate from high school, usually with 8th-grade skills. Less than 1 in 5 will graduate from college.

* The academic achievement gap in this chart has been weighted to provide the most conservative gap sizing possible. Without weighting, the achievement gap between these two groups, during these years, is 165-175 points. API data per California Department of Education Testing & Accountability, 2003-2009
